CONNECTING BUSINESS

1 The Login Page

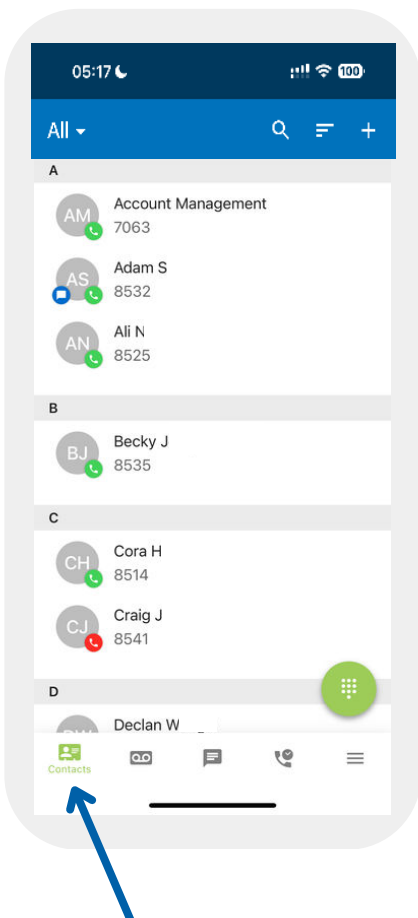

123Telecom will advise you of your personal login, this will be your unique username and you will be prompted to create a password.

Accept all permissions your phone may ask you to confirm.

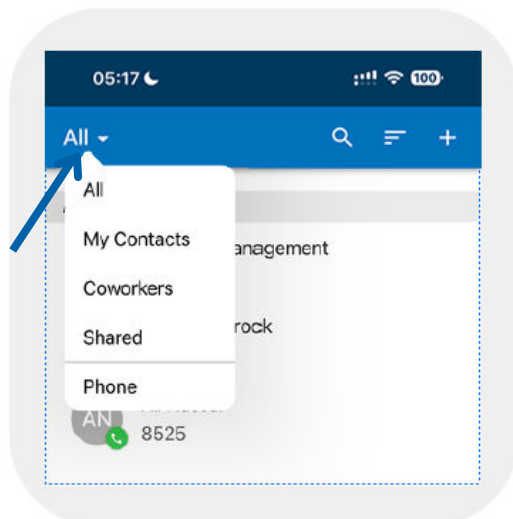

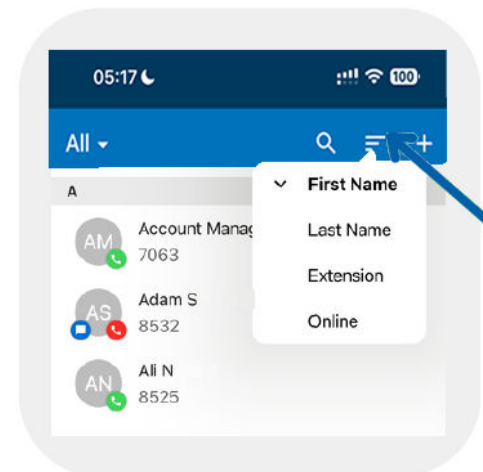

Once logged in, you can access to all of your contacts.

From here you can make calls, message and create new contacts.

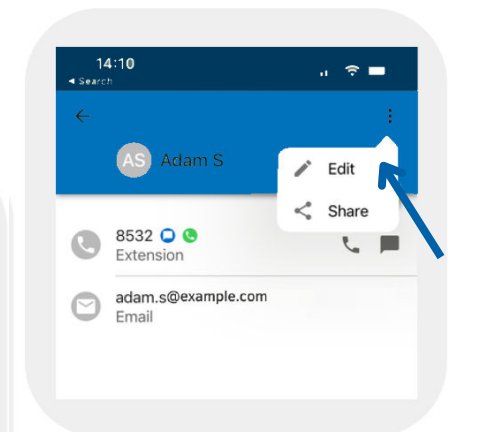

2 Contacts Page

- Access work contacts or personal contacts.
- Share contacts with others via a link.
- Search for contacts by name or their extension number.
- Message or call colleagues from the contacts tab.

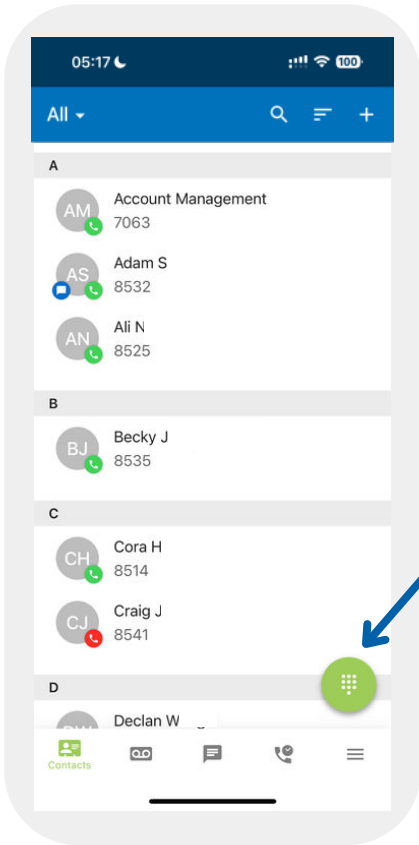

View work or phone contacts

Call, message or edit your stored contacts by clicking into them

3 Making a Call

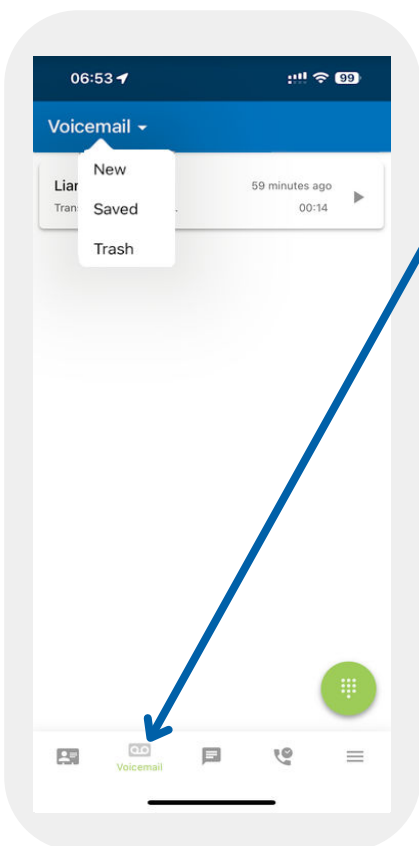

To dial out you simply click the keypad icon.

From here you're able to make outgoing calls to numbers not kept in your contact book.

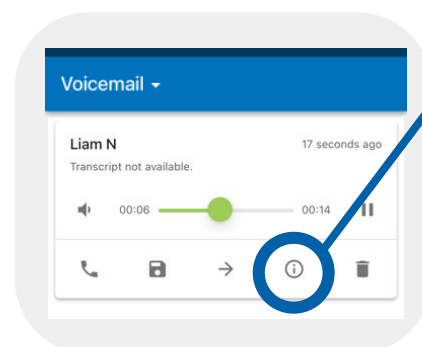

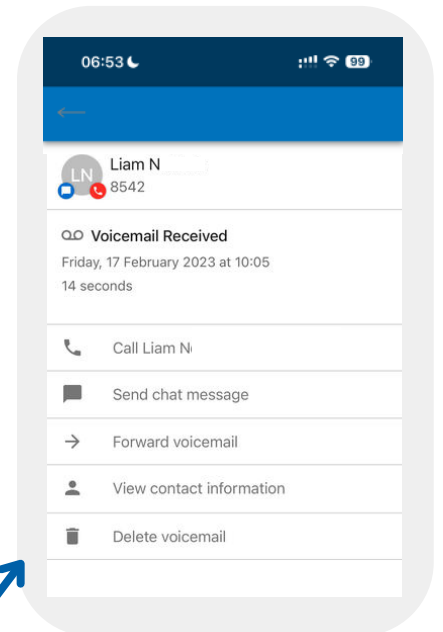

4 Voicemails

Access and listen to voicemails. These can also be accessed through desktop or through your handset if you have one.

Listen and replay your voicemail. Click on the 'i' to Call, message, save or forward the message.

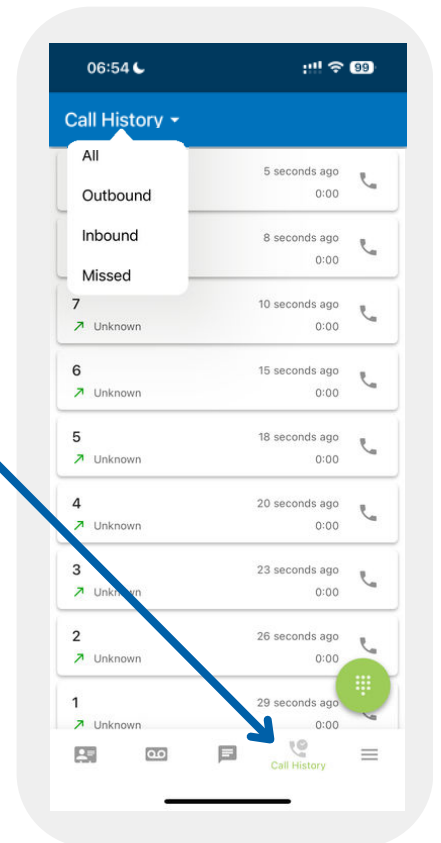

5 Instant Messaging

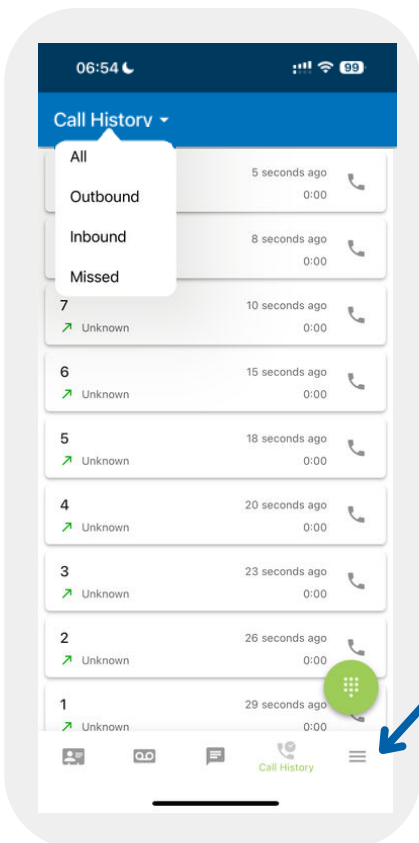

Create new chats with colleagues, can be used from your mobile app or desktop app.

6 Call History

See your call history, filter by inbound, outbound or missed calls.

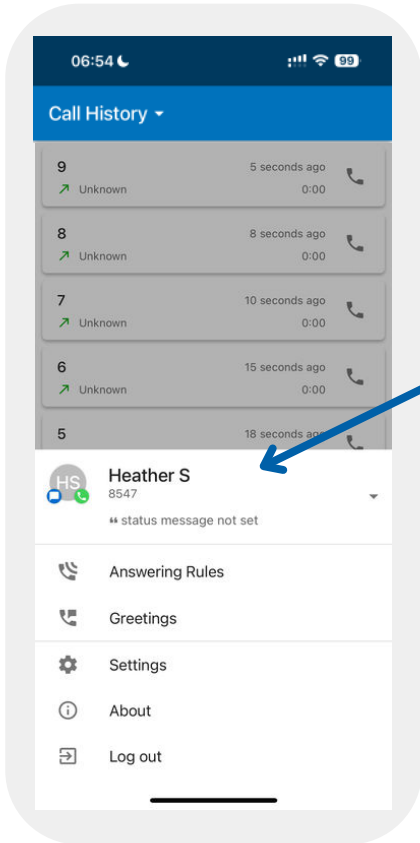

7 Settings and Profile

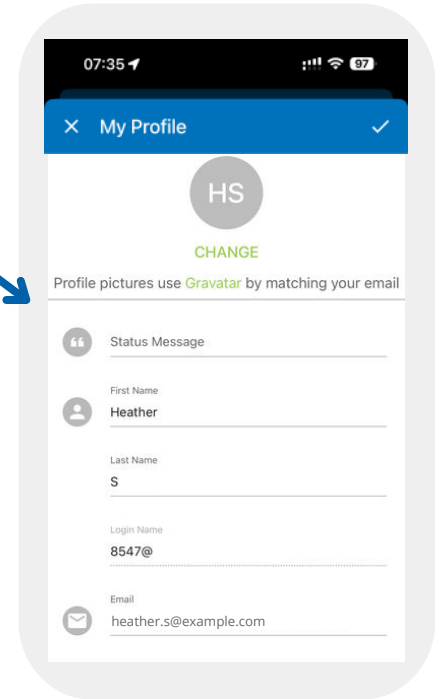

To access the settings click on the 3 lines, the last option on the bottom menu.

This will bring up the option to access your profile or mobile app settings.

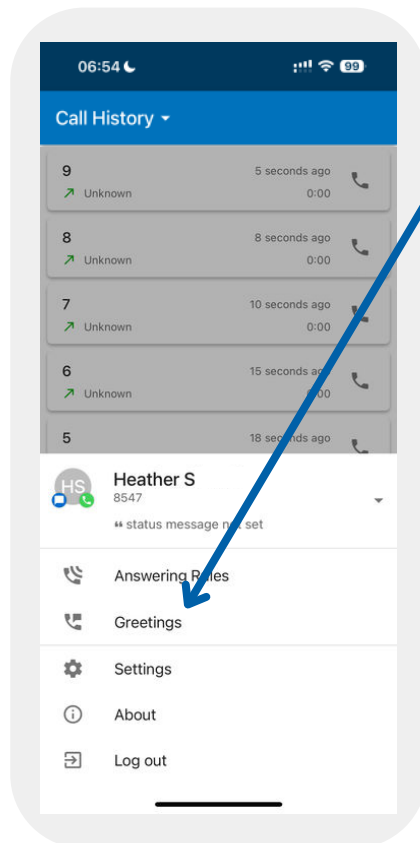

8 Profile

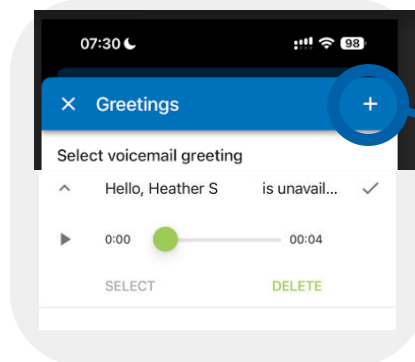

Click into your personal profile to add a 'status message', share your email address or change your display name and image.

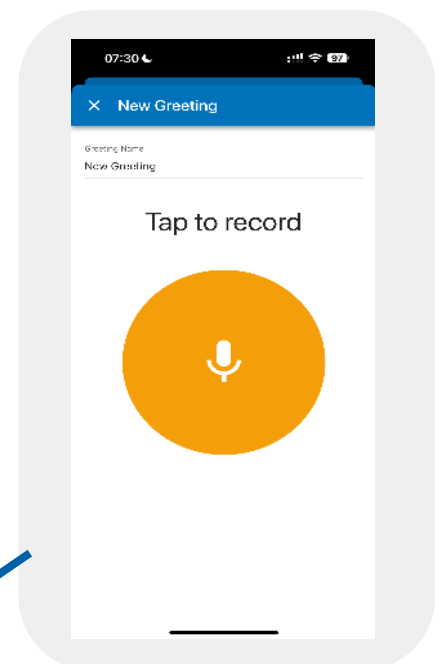

9 Settings

Click into Greetings to change your answer phone message.

Create different greeting messages, tap record to create a new one.

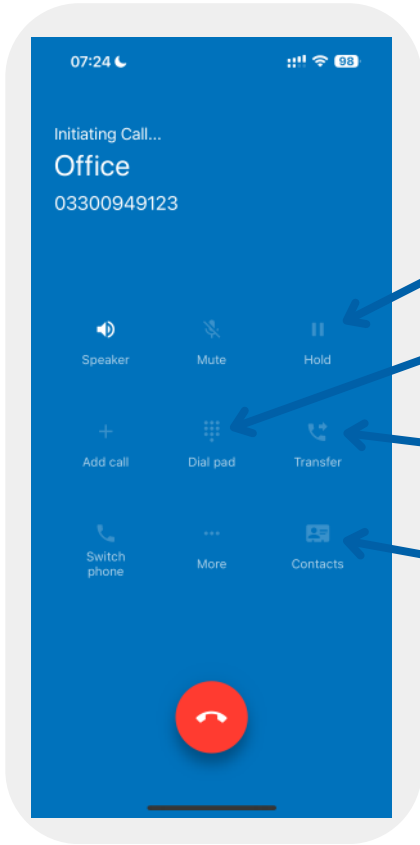

You can access each message and listen back from the greetings menu.

10

Call Features

When making or receiving a call, you can access features such as transfer and place on hold.

These features can be used through both the mobile app and the desktop app alike.

Put callers on hold

Access the keypad whilst on your call

Transfer the call for someone else to take

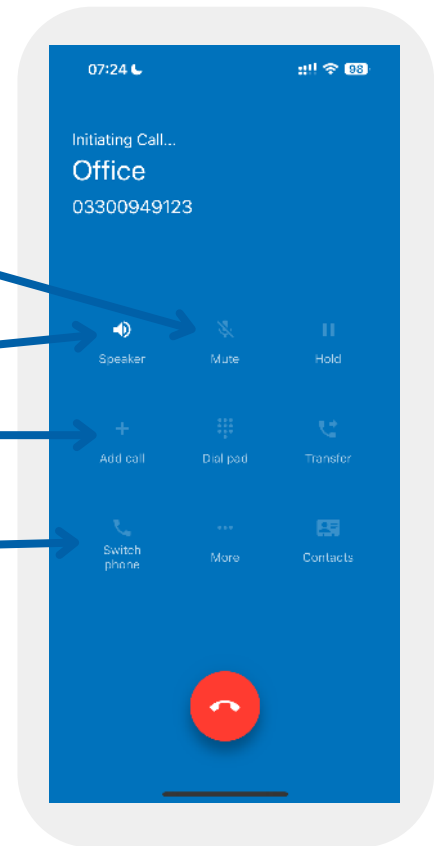

Access your contacts during your call

Mute yourself so the other person cannot hear you

Put the call on Loud speaker

Add a caller in - useful for conference calling

Switch call from mobile app to desktop app
